

You only have yourself in life.  
*Hope to stay always with you.*

Life is all effort and perseverance.  
It was an undeserved true love.  
Currently depending on what I like  
Without self-esteem but with much ego.

Learning to learn by making mistakes.  
Shouldn't have grown up so fast.  
A perfect Turn off your mind and live.  
graveyard of buried hopes.

Music can  
help, lyrics can hurt.

Life teaches us lessons, learn them.  
Worry about yourself, not about them.

Learning to  
laugh and also cry.

I go with my own flow.  
To win you have to fight.

Wish to be in another place.  
I would love to go back.

Any possibility to hug you again?

All my dreams will come true.

I should not have said that.

Come back when you are happy..

We'll meet again, don't know where.

Currently running on friends and caffeine.

Be happy, no matter what happens.

Whatever happens, it will be OK.

Trust yourself and enjoy the game.

Fighting  
today, to be happier tomorrow.

Life is a gamble, enjoy it.

Whatever you do, do it right.
